

Kelvin SCAN-404B for LCR Meter controlled by PLC/SPS

- ◇ 4 Pin to 4 Pin **Kelvin** Scanner
- ◇ Control by PLC 24V signals
- ◇ need no external P/S
- ◇ need no PC interface
- ◇ LCR connection accessories
- ◇ shielded metal case

Short cable guarantee stable and accurate measurement results. The scanner can be placed as close to the DUT as possible. The test leads from LCR Meter to Scanner are calibrated out.

Specification:

Relays: Kelvin Reed Relays
Volt: 24 Vac
Switching Time: 0.2 ms

Dimension: 190x120x85mm
Weight: 2 Kg

Tolerance from pin to pin

C \pm 5pF
L \pm 1 μ H
RDC \pm 50m Ω

Repeat Measurement

RDC \pm 2m Ω
L \pm 10nH

Connections:

D-SUB 15 SPC signal
